

PUBLIC LEDGER

SIXTH YEAR.

MAYSVILLE, KY., THURSDAY, MAY 6, 1897.

ONE CENT.

Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

Notice.
The law requires all persons who wish to build new houses or remodel old ones to file their permit with the Mayor. Those who have not done this had better do so at once.

It covers more space, holds its color better and wears longer than any other. It's Rainbow Paint at Ray's Drugstore.

The railway depot at Poplar Plains was burgled a few nights ago. The thieves didn't get much, and as yet the bloodhounds haven't caught the thieves.

The gross earnings of the L. and N. for the fourth week of April were \$475.23, a decrease of \$3.10 from the same period of 1896, an increase of \$33.60 over 1895, of \$57,377 over 1894, but a decrease of \$22,762 compared with 1893.

GOOD RECORD.
Fleming County Will Soon Have No Use For Courthouse or Jail.

After a five days sitting the Grand Jury of Fleming Circuit Court adjourned without finding a single indictment, something which has never before occurred there.

The public expected a long list of indictments at this term of Court owing to the numerous turnpike raids, but it seems no investigation whatever was made in this matter.

WE'RE FOR AMERICANS!
MEXICO begins to feel very lonely as a silver standard country. Her neighbors in Central and South America are abandoning the silver standard as rapidly as possible, and her silver associates in other parts of the world are flocking to the gold standard.

The beet-sugar industries of Germany made an average profit last year of \$38,340 each, in the list of 113 from which returns have been received. This is encouraging to those who desire to see the beet-sugar industry established in the United States.

VICE-PRESIDENT HOBART is winning high commendation as a presiding officer of the Senate. One of the oldest officials of that body says he is developing greater capacity and ability as a presiding officer than any Vice-President whom he has ever known.

IMPORTERS expect to have a year's supply of goods on hand from foreign countries before the new Dingley Tariff Bill becomes a Law. Yet that Bill is likely to get on the statute books in less than one-fourth the time occupied in the consideration of the Wilson Bill.

FOURTEEN shiploads of free wool a day coming into a single port is rather discouraging to the prospects of the American wool grower. No wonder the Republicans of the Finance Committee are sitting up nights pushing to get the Dingley Bill on the statute books as soon as possible.

The silver cause seems to be losing ground even in its own home. The silver candidate received a smaller vote in the Majority election in Denver than either of the other candidates. Of the 28,465 votes cast the silver candidates received but 7,128 and the Populist candidate but 7,641.

For the first time in more than one hundred years it is impossible to buy in the open market a drink of beer or whiskey in Winchester; but steps are already on foot for running a "jig train" between that place and Lexington, and many predict that there will be more drunkenness in the town than ever before.

The importers are very busy now. They are bringing in shipload after shipload of foreign goods with one hand and with the other subscribing to a fund to furnish to the Democratic newspapers of the country stereotyped attacks upon the Dingley Bill. Most of these importers are of foreign nationality, and their interest in the dear people of the United States lies exclusively in their ability to sell them foreign-made goods and to suppress manufacturing in the United States.

It was for the benefit of the laboring men and women of Japan that that country adopted the gold standard. A commission of her wisest statesmen and business men studied the subject for eighteen months and found that under the silver standard the cost of living had advanced much more rapidly than wages had increased. The average cost of living in Japan increased 62 per cent. from 1873 to 1894, while wages increased only 33 per cent.

SMART ARITHMETIC MAN.
Story of Chinaman's Property—Was It Divided Equally?

A Chinaman died, leaving his property by will to his three sons, as follows, says Harper's Round Table: "To Fuenhuin the oldest, one-half thereof; to Nupin, the second son, one-third thereof, and to Ding-bat, his youngest, one-ninth thereof."

When the property was inventoried it was found to consist of nothing more or less than 17 elephants and it puzzled those three heirs how to divide the property according to the terms of the will without chopping up 17 elephants and thereby seriously impairing their value. Finally they applied to a wise neighbor, Suenpung, for advice. Suenpung had an elephant of his own. He drove it into the yard with the 17 and said:

"Now, we will suppose that your father left these 18 elephants, Fuenhuin, take your half and depart." So Fuenhuin took nine elephants and went his way.
"Now, Nupin," said the wise man, "take your third and go." So Nupin took six elephants and traveled.
"Now, Ding-bat," said the wise man, "take your ninth and begone." So Ding-bat took two elephants and vanished. Then Suenpung took his own elephant and drove him home again.
Query: Was the property divided according to the terms of the will?
